

Studen Survey – Spring 2010 – 112 responses

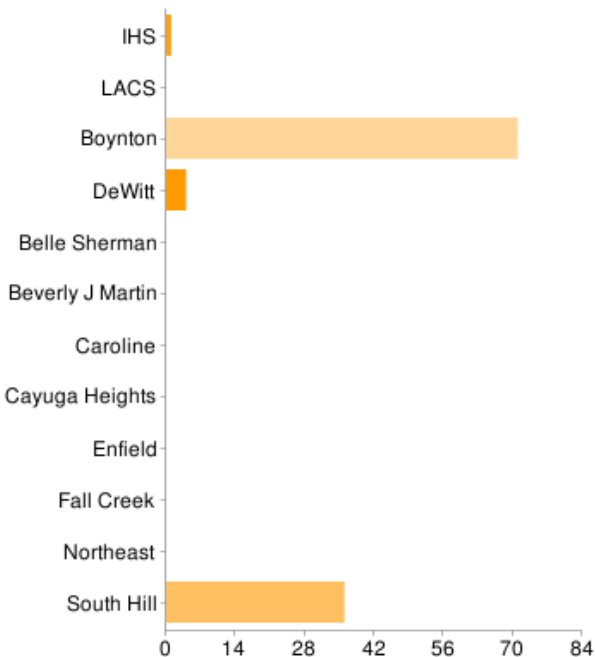

1. What grade are you in?

5th	36	32%
8th	76	68%
11th	0	0%

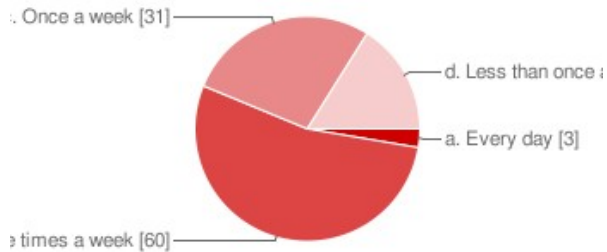

People may select more than one checkbox, so percentages may add up to more than 100%.

2. What school?

People may select more than one checkbox, so percentages may add up to more than 100%.

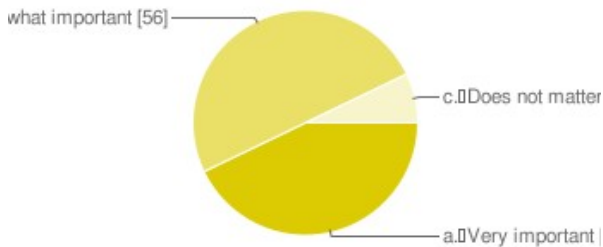

3. I use a computer at school for class work:

a. Every day	3	3%
b. Two or more times a week	60	54%
c. Once a week	31	28%
d. Less than once a week	18	16%

People may select more than one checkbox, so percentages may add up to more than 100%.

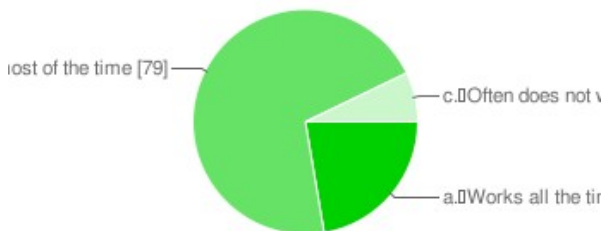

4. I think using computers at school is

a. Very important	48	43%
b. Somewhat important	56	50%
c. Does not matter	8	7%

People may select more than one checkbox, so percentages may add up to more than 100%.

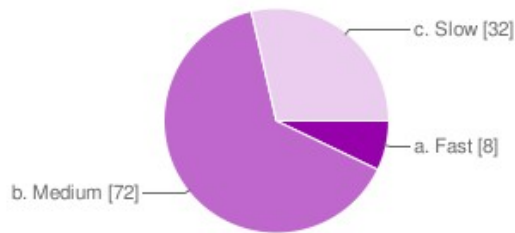

5. When I plan to use a school computer, it

a. Works all the time	25	22%
b. Works most of the time	79	71%
c. Often does not work	8	7%

People may select more than one checkbox, so percentages may add up to more than 100%.

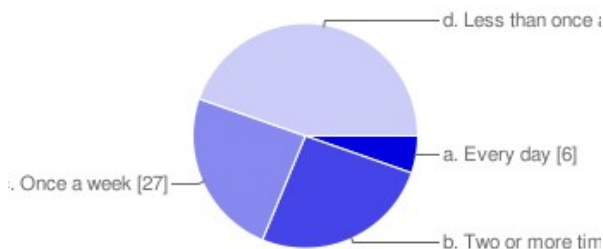

6. School computers on the Internet are usually:

People may select more than one checkbox, so percentages may add up to more than 100%.

a. Fast	8	7%
b. Medium	72	64%
c. Slow	32	29%

7. I create something on a school computer by using a program to write, make or use pictures, communicate, etc?

People may select more than one checkbox, so percentages may add up to more than 100%.

a. Every day	6	5%
b. Two or more times a week	29	26%
c. Once a week	27	24%
d. Less than once a week	50	45%

8. What is the most interesting project you have done using a computer and what class was it for?

8. What is the most interesting project you have done using a computer and what class was it for?

writing my country report for 5th grade

I liked doing a powerpoint and my report, they were both for studying South America. I am in 5th grade

central America project 5th

doing powerpoint

I liked typing my D.A.R.E essay with 5th grade

Latin American research project

The project I enjoyed the most was writing a report on French Guiana for 5th grade.

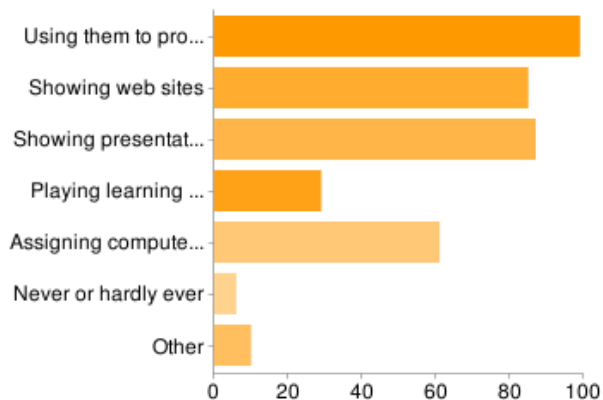

My Latin America research project, when I presented my power-point

I enjoyed doing the Latin America report in fifth grade.

My most interesting project was the Latin American research project

MORE IN APPENDIX- QUESTION 8

9. My teachers use computers in teaching by (check as many as apply):

People may select more than one checkbox, so percentages may add up to more than 100%.

Using them to project or show lessons	99	88%
Showing web sites	85	76%
Showing presentations	87	78%
Playing learning games	29	26%
Assigning computer projects	61	54%
Never or hardly ever	6	5%
Other	10	9%

More in Appendix- Question 11

12. Do one or more of your classes have a blog, Blackboard site or web page?

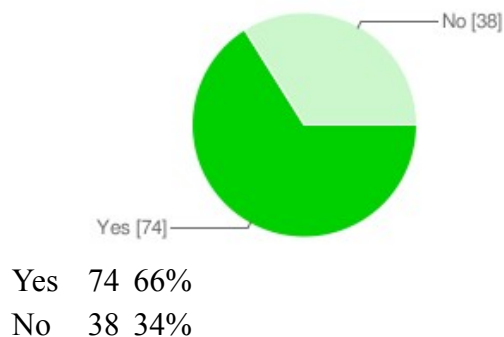

13. Do you think that your parents expect you to use computers as you learn in school?

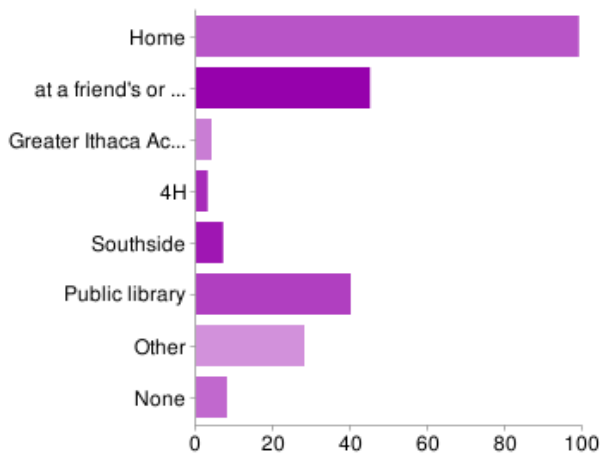

People may select more than one checkbox, so percentages may add up to more than 100%.

14. Do you often use a computer outside school to learn?

People may select more than one checkbox, so percentages may add up to more than 100%.

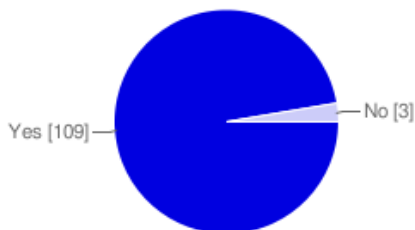

15. Check off any locations where you use a computer for doing schoolwork:

People may select more than one checkbox, so percentages may add up to more than 100%.

Home	99	88%
at a friend's or relative's	45	40%
Greater Ithaca Activities Center (GIAC)	4	4%
4H	3	3%
Southside	7	6%
Public library	40	36%
Other	28	25%
None	8	7%

16. If you use a computer outside of school, does it connect to the Internet?

People may select more than one checkbox, so percentages may add up to more than 100%.

Yes	109	97%
No	3	3%

17. In what ways do you think computers are important to your learning?

17. In what ways do you think computers are important to your learning?

it gives us a chance to practice using computers it also helps us type and find info easily

Computers are important to type reports, its easier because your hand doesn't start to ache, its also like a bunch of books all put in one!

looking up things learning games

math typing spelling reports

A computer helps you find information faster and for me it is a better way to write a book report.
its a good way to get facts and importain informationon progets.
Computers have a great impact of my learning because:

- a) they help me learn how to use them & get a feel for other technology
- b) they help me do research if my book isn't so great

I think they help you get important information if the information is not in your book, and they can give directions or vidios on how to do something.

It has information a book might not have.

Computers type important reports neatly.

It has learning sites.

You can communicate with people (Email, ect.)

computers make it possibal to find imformation esaly without going to a library or other sorce.

I think computers are important because if you can not go to a place to get information you can just look up the thing or place and find out about it.

1. you can learn how to type fast.
2. you can learn how to make a power point or do a book report.

It helps you find new information

google up stuff and look for spanish words get pictures for your report and type your papers and your report and your book report

It helps me access information that books can't provide me.

games and garage band and other fun things

They are the best way to get kids excited

they have lots of information.

Well, if we use computers when we are older, it would be easier to learn now.

It is important because our soicity is moving and evolving so fast.

don't know

To do your schoolwork

they are helpful and fun.

they have websites that i can look up something that i dont know!

for math

sometimes, because they can teach us about things that i did not already know about .

To learn to type

You can find information fast.

None.

well, if you look up, for example, google, you can look up a word that you don't understand, and find out what it means

to learn to how to use computer and how to type .

they are important for learning because sheets of paper can't go to different web pages or use very much technology.

you can try out new and important websites!

they help me learn things that I have always wondered about

they help me learn things that I have always wondered about

they help people understand the future

They have much information

Help With Research. Typing. Fun learning.

idk

most of the time you can find what you are looking for

You can access lots of information

They help you research and they prepare us for highschool and collage when we will need to type papers and research more often

I think computers are important to learning because they are used a lot in research and creating things. They are an important part of the new age and everyone should know how to find information and use it.

Easy access to information

Easy way to type up reports or essays

Easy way to create presentations

Easy way to print pictures

They allow you to research in a more convenient way.

As previously mentioned, computers are a large part of society today. Writing essays by hand is becoming less and less popular, and a good portion of jobs nowadays use a computer for at least 50% of the work. I think that computers are important in this era and that students should learn how to use them.

they provide easy access to a lot of information

to find alot of information

They are important because they can help me find visuals for the topic that I am researching.

Its not all i need it for is research and word docement for papers. It has no need for actally learning

Computers are used commonly and use of them is an important skill.

to get a greater understanding of a subject

They can help you find imformation quicker and easier than textbooks.

Research and word documents

the internet has lots of useful info that cant be found in textbooks

They have a wide source of Information and the internet provides a bunch of websites to look at

The internet provides a large number of sites to gather information, though they aren't often reliable.

the internet gives us a lot of useful information to help us learn more

i really don't think it is cause i only get on to go on facebook or myspace so not really roger that

i don't know

EVERYTHING

Well, they help us gain knowledge about our surroundings.

They are an excellent resource to get information from, but you must be careful not to get false information. (from wikipedia etc.)

they help us gain knowledge because on the internet there is so much information, but you must be careful not to get false information from wikipedia, etc.

i live on the computer kthxbai <3

i don't know

I think computer education is more factual and updated than regular sources of information. Example: Wikipedia is as accurate if not more accurate than traditional encyclopedias.

Also, many fields of sciences and mathematics use computer modeling and processing in order to produce breakthroughs or check their work, instead of being forced to check their work themselves.

they have infinite data and points of view

Computers make research easy.

it makes it faster to find the information that you need.

Easier way of understanding the material you are learning.

They are the choice media

they make research easy

I think the internet allows us to see a variety of opinions and point of view, though it is important to be able to know what is fact and what is fiction.

i don't know

research, and pictures.

you can learn things that may not be in books

doing research, and discovering other things

They can help with my spelling.

I think that computers contain all information that man knows today in the Internet. Interactive educational games also help me learn. Computers also have calculators and dictionaries as programs too (PC's might not have dictionaries, but Macs do).

It becomes easier to obtain information from different sources.

Computers allow me to access a vast amount of information that is difficult to obtain somewhere else.

I like pie.

I think they help us gather information besides using books.

I think they help us gather information besides using books.

to find research and to write things for english.

It is better than a book because there is more info.

The internet has tons of information

It is faster to use, and easier for our generation to use. Plus it interests more children than just reading a book. :)

computers can help me find information for projects, and gives me a spot to type an essay

Computers can help me find info. for projects, research papers etc.

everyway possible

it provides me with the opportunity for individual, out of class research.

They can allow you to explore more information that has been updated recently unlike in books and many things are being invented.

When a person uses a computer, the opportunities to learn something new are endless. In less than a minute, a person could find dates of important events, when their homework assignments are due, pictures of rocks being taught in Science, the opportunities are endless. In addition, using programs are a vital part of learning. Through Autodesk Inventor, I learned how to use a computer program. Also, using Word is a more efficient and easier way to write essays. In addition, I'm learning Hebrew using the Rosetta Stone, a computer software program.

-because you can access information easier than trying to find it in a book. and you can just search for it and it pops up like magic or something

Google ways...

I can learn how to type better

you can learn anything on the internet and it is faster than reading a book or dictionary.

they give us information that we may not have gotten from books

helps you get information

to do research

Computers can help you access learning tools without having to go to a library. There are also some websites that can help you learn in ways more interesting than books/textbooks. Computers can also help you gain outside knowledge in your classwork other than what is in the textbook.

I think that computers are important for our learning because some people like to be able to watch videos or listen to recordings rather than read text out of a book. The computers at Boynton have a lot of different programs and applications that we can use for different classes and projects. :)

computers are very important to my learning because it is such a broad source of information. I can find anything I would like to find

Computers have many websites that may teach you about many things.

I think they are important because they mostly do anything you need them to do and find anything you need to find.

they give other views on topics that may be hard to explain and show demos that cant be shown in class

I can obtain any info I need.

They help us understand a greater expanse of technology, and are used in a great variety of careers, that might be available to our students.

They have lots of information that most of the world is able to manipulate and knowledge from millions is available to us all.

APPENDIX

QUESTION 8 CONTINUED:

I really liked doing my country report on the computer.

I think the power point for the latin america project is the most interesting.

Student refuses to answer

making my guatemala report

The most interesting thing i have done on a class computer is taking notes for the Argentina project.

garage band

I Movie , it was for a poem for our class

i think the imovie

I think I like best the project we are doing right now, where we record a poem that we like, and then add pictures that go with our poem.

Making a song for my poem.

garage band

The most interesting project was my Imovie poem. The class we work in is Ms. keostler's class.

I-movie

i think it would have to be the imovie's we did it was challenging but fun!!!!

Probably the poetry project when i was in 5 grade in ms. keostlers class!

making an imovie was the most interesting class project i have done so far and it was for writing class.

I made a i movie with my class about poetry.

I made an I-Movie to introduce myself to the class. For my class.

I did garage band for my 5th grade class.

i-movie and powerpoint

I think my favorite is probably I movie's .

My first garage band prodject.

I made a song on Garage Band,for Library.

we are working on an imovie

project now.

tech-cad project

Technology drawings

English to research essay materials.

nothing

social studies research

We made wooden trains in tech using Autodesk Inventor Professional

A research project for English

A Holocaust class for Social Studies

Making 3D shapes on Inventor in Technology class

Photography in Art.

I enjoyed learning how to use the Inventor program for Technology class. Seeing as we live in an era in which computers are highly depended on, I found it useful and effective for planning 3D projects on a computer, making it more precise.

printing photos in art class

I don't remember

Inventor and it was for technology class.

Uncovering Clay People, Social Studies in 6th grade

Photography for Art class

CAD in technology class.

a social studies poster about WWII

Art and making a collage.

Tech class making blocks

Art class- editing pictures for a photo project!

shadowing in art and taking pics in art also..... UR POOP

WW2 essay for English

Generally Social Studies projects require internet use/are the most enjoyable.

Making a poster for health class about cocaine

I was 6th grader in Mr. Rich's class and we had to work on these goals and there were all these different levels that we had to pass

nothing

Research project for social studies

We made a train on Autodesk Inventor in Technology class.

We made a train on Autodesk Inventor in tech class

none of them are interesting...teachers need to work on creativity, instead of research papers. >.<

inventor and it was for technology.

The most interesting project I've done using a computer was my personal study of Centroids, Circumcenters, Incenters, and the Euler Line, using a geometer sketchpad program. It was for "math" class.

making a world war 1 aviation project for social studies

I liked the Inventor Pro program in technology.

im not sure. i usually like doing all of my projects on a computer.

Using inventor on the computer.

I liked using Inventor

I used a computer to create a stop motion animation of spoons and clay to create a book report for my English and Reading classes.

social studies... powerpoint.

a project on methamphetamine for health class, and all the social studies projects on the important wars.

a project for social studies about the holocaust

It was a life time line for social studies class.

The world war two project in socialstudies class.

In technology, we made a train on the computer.

Creating a train for Technology Class.

Anne Frank Research Project -- 6th Grade Social Studies

A brochure about sex and STDs for Health. We had to explain how to use a condom and the consequences of STDs. We also told about female contraception. It was a very interesting subject.

A powerpoint for science. I did one of the elements.

A powerpoint for science. I did one of the elements.

writing stories for 6th grade english class

The most interesting thing o-n the computer was a powerpoint in Science Class.

Auto des inventor in Tech

The most interesting project I have done using a computer in school was in Science class of my 8th grade year and I made a power point

building the model train on the computer in tech class

WW1 Project Social Studies

SOCIAL STUDIES!!! LOLCATS!!! ZOMG!!!

I made IDWs on Autodesk Inventer for tecnology

Making a brochure for Social Studies.

For Technology class when we did technological drawings in a design program called Autodesk Inventor.

the health project about drugs

sOCIAL STUDIES TIME LINE

train

Train making in TECH

i think the most interesting project was building 3d sketches on the internet for technology class.

making a video project we used a computer to make it look and sound really cool

The Photoshop

i made a train on auto deck inventor

I used a computer to do a iMovie in Tech class in 7th grade.

We did a project for Computers Class in 6th grade where we had to do a series of Power Point Presentations with different subjects.

created a 3d rendering of a house and made a 3d rendering of a train

idk. :)

I think my most interesting project that i have done on a computer is a English project on dogs that was really interesting.

animated activites in earth science

The most interesting thing I have done were two faoux newspaper articles for a 'civil war newspaper' in Social studies. This was only fun because I had Mr. Sauls. who was amazingly awesome. I hate using school computers. No one ever focuses on what they are supposed to.

I designed a bridge, for TSA in West Point Bridge Design. Then I used autodesk inventor to create a CAD drawing of it.

Building Homes of Your Own - 8th grade technology with Mr. XXX
